

MEDICAL SCHOOL RECOMMENDATION LETTER FROM DOCTOR

Dear Admission Committee

I am writing to strongly recommend Jane Kimberly for admission to your medical school. As a doctor and Jane's former supervisor, I had the privilege of working with her as an intern in my clinic, and I was consistently impressed by her abilities and potential as a future physician.

During her time at my clinic, Jane consistently demonstrated her knowledge and skills in the field of medicine. For example, she quickly and accurately diagnosed patients and developed effective treatment plans. She handled complex and difficult cases with confidence and poise. Additionally, she effectively educated patients about their conditions and treatment options as an excellent communicator.

Jane's personal characteristics make her an excellent candidate for medical school, in addition to her technical abilities. She demonstrates compassion, empathy, and a strong desire to help others. She collaborates effectively with others to achieve shared goals, as evidenced by her instrumental role in organizing a successful health fair for the community, and her work with fellow interns to provide high-quality patient care. Based on these traits, I have no doubt that Jane has the potential to excel in medical school and become an outstanding physician.

I strongly recommend Jane for admission to your program, and I believe that she would be a valuable asset to your institution.

Sincerely,

[Your Name]
